

# 20LF Series Loose-Fitting Facepiece

## Lightweight, Comfortable Protection

The Bullard Loose-Fitting Facepiece provides comfortable, affordable, and effective protection from a wide range of respiratory hazards. Available for use as a CC20 Series supplied air or EVA Series Powered Air-Purifying Respirator, this loose-fitting facepiece constructed of DuPont™ Tychem® QC provides its users with versatility, advanced features, and ease of use. The Bullard Loose-Fitting Facepiece is approved by NIOSH. The Loose-Fitting Facepiece is used in a wide variety of applications including:

- Pharmaceutical Manufacturing
- General Industry
- General Maintenance
- Woodworking
- Spray Foam
- Painting/Powder Coating
- Healthcare Workers

## Features and Benefits

### Soft Plenum Delivery System

The Loose-Fitting Facepiece utilizes a unique Soft Plenum design to deliver air to the worker's breathing zone. As air enters the facepiece from the twist-lock breathing tube connection, the soft plenum inflates on the top of the head. The air is then directed down through an opening at the top of the facepiece directly into the worker's breathing zone. Unlike other loose-fitting facepieces, this design provides more airflow where it is most needed and helps to prevent fogging of the lens or drying of the eyes.

### Latex-Free Construction

Bullard Loose-Fitting Facepieces are completely latex-free, eliminating any concern over latex sensitivities by the wearer. The facial seal material is a unique engineered material that is 100% latex-free.

### Built-in Suspension

The sewn-in soft suspension provides a comfortable fit to the worker's head, while allowing for complete disposability of the facepiece. This feature also allows for the facepiece to be easily donned/removed with no assembly required.

### Twist-Lock Breathing Tube Connection

The twist-lock breathing tube connection provides ease of use by allowing quick connection or disassembly of the breathing tube whether on or off the worker's head.

### Wide Angle Lens

The Bullard Loose-Fitting Facepiece features the largest lens available. This gives the worker a wide panoramic field of vision, virtually eliminating the "closed-in" feeling of many respirators.

### Climate Control Option

When used as a CC20 Series airline respirator, the Loose-Fitting Facepiece may be used with the optional climate control devices. This allows workers to heat or cool incoming air by as much as 35°F to improve comfort and enhance productivity.
